Learn at Home with PBS KIDS

Week of September 7th

Hello, Families!

Welcome to "**Learn Along" Bingo**! We're happy to share PBS KIDS activities with you and to work with PBS member stations and community partners across the country to help support learning at home. With "Learn Along" Bingo, children can view, explore, and play as they learn alongside their PBS KIDS friends on the PBS KIDS 24/7 channel. We hope your family will use it to inspire learning each and every day.

It's Nature Week!

In this packet, there are printable activities and everyday learning ideas for you and your child to choose from. As you complete each square, mark it off to celebrate the learning.

Learning Spotlight: "Making Observations"

This week, we're learning how to observe and learn about nature with our eyes, ears, nose, mouth, and skin. Making observations is an important skill that helps scientists learn about our world.

Show What You Know: Let's Observe Place Mat

The last activity in this packet is one special way for children to show what they've learned about making observations with a grown-up.

Tune in: Watch the new PBS KIDS program, ELINOR WONDERS WHY on Tuesday, September 8th at 3:30pm EDT on the PBS KIDS 24/7 channel.

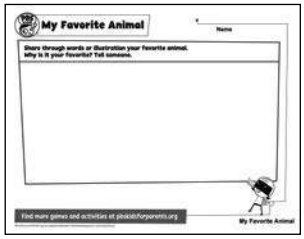

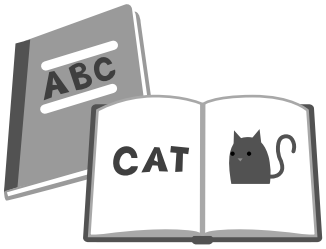

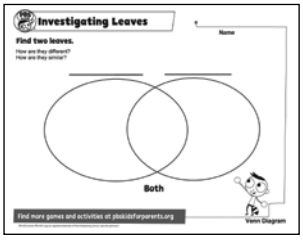

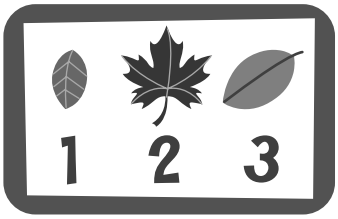

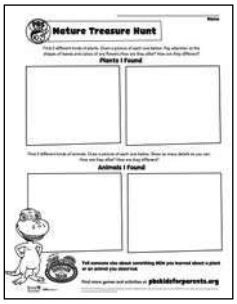

Ready for more? Watch your favorite PBS KIDS shows on the 24/7 channel and live stream at pbskids.org/video/livetv or on your local PBS station.

Happy learning!

Scientist: _____ ,what do you observe?

(name)

Use this place mat for meal time conversations. Make it a game! Use words to describe something you observe. Can others guess what it is?
(For example, "I taste something sweet and juicy with my mouth. What is it?" An apple! "I hear something quiet and low with my ears. What is it?" The fan!)

Observe means to use your ears, mouth, skin, eyes, and nose to learn about the world.
