

Tower of Cows

How to Play

To build a tower, cows must be stacked with TWO side-by-side on each layer.

So, when you place a cow, make sure you leave enough room for a second cow to be placed next to it.

There are three ways to play:

1. Easy:

- See how many cows you can stack before your tower falls over.

2. Harder:

- Shuffle the Number Cards and put them upside down in a pile.
- Players take turns picking a card from the deck and stacking the number of cows shown.
- The first player to knock any cows off the tower gets a point.
- Play as many rounds of the game as you like.
- The winner is the player who has the FEWEST number of points when you are all done.

3. Hardest:

- Shuffle the Trick Cards and the Number Cards together and put them upside down in a pile.
- Players take turns picking a card from the deck.
- If it is a Number Card, the player stacks the number of cows down.
- If it is a Trick Card, the player stacks one cow while doing the trick described.
- The first player to knock any cows off the tower gets a point.
- Play as many rounds of the game as you like.
- The winner is the player who has the FEWEST number of points when you are all done.
