

# Signs of Fall

Name \_\_\_\_\_

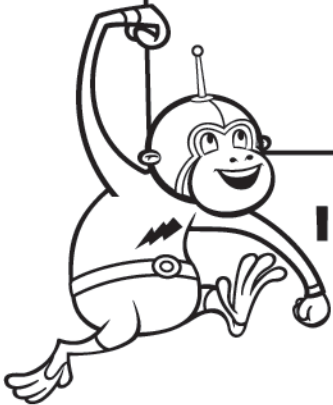

The next time you're outdoors, exercise your powers of **observation**, or paying careful attention, to notice the world around you. What signs of Fall do you see? You can use a **journal**, or a written record of your observations and thoughts. Try it out with this nature journal. Make drawings and notes of what you see and record your thoughts. Did you see anything unexpected? Don't forget, you can ask someone else to lend a hand if you need help with the words you want to write in your journal.

## What I Observed

I noticed...
