

Make a Buzz-themed Paper Football!

INSTRUCTIONS

1. Cut off the bottom half of this page.
2. Fold it in half along the dotted line.
3. Fold up one of the bottom corners so that the bottom side lines up with the side of the strip, making a triangle shape.
4. Keep folding the paper triangles up the strip until you run out of space.
5. Fold the corner of the remaining paper to make a tab. Fold the tab down and tuck it into your triangle.

Make a number line with chalk or masking tape. Use your hand to measure even spaces along the line to add numbers. Set a goal for how far you want the football to go on the number line.

Then, go for the goal! Hold the football standing up on one of its points at the start of the line. Use your other hand to flick it. Mark which number the football reached. Subtract that number from the goal to see how much farther it needs to go. Keep trying until you get there!
