Materials

- ❏ 3 x 5 index card
- ❏ 12-inch piece of string
- ❏ "Make a Wind Gauge" handout
- ❏ small paper clip
- ❏ glue sticks
- ❏ hole punch
- ❏ scissors

Make a Wind Gauge

How fast is the wind blowing? Use this Wind Gauge to find out!

Directions

1 Glue your Wind Gauge to an index card.

2 Make a hole where the black dot is. Tie the string through the hole.

3 Attach a paper clip to the other end of the string.

4 Outside, hold the card so the string lines up with 0 (zero). Point the arrow toward the wind. What number does the string line up with now? That's your wind speed!

5 Now find another place to measure the wind speed. Which place has the fastest wind?
